Evidence-based performance measures for *efficient* and *effective* global health service delivery

## SPOTLIGHT: M4M AT WOMEN DELIVER

### Representing **#thepowerof** measurement at Women Deliver 2019

Metrics for Management was a proud NGO sponsor of the Women Deliver conference in Vancouver in early June, 2019. We enjoyed speaking to attendees about our measurement solutions and demonstrating the power of the EquityTool through our interactive "Visualizing Equity" game. Thank you to everyone who stopped by to chat! We hope to catch you at our next conference, or [email us](#) to arrange a special presentation of our free tools and our tailored services to help you improve your performance.

## New article: "Toward the development of a short multi-country person-centered maternity care scale"

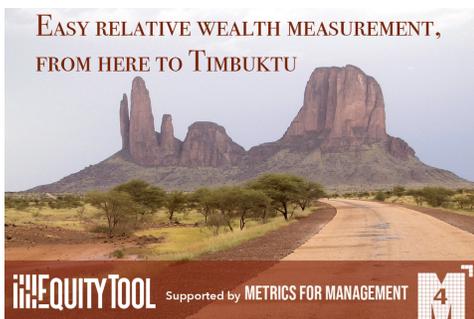

Our latest article uses data from Ghana, Kenya, and India to develop a shortened, valid and reliable scale applicable across multiple settings for routine monitoring of person-centered maternity care (PCMC). The 13 item scale is 47% shorter and incorporates the domains of dignity and respect, communication and autonomy, and

supportive care.

Afulani, P. A., Feeser, K. , Sudhinaraset, M. , Aborigo, R. , Montagu, D. and Chakraborty, N. (2019). *Int J Gynecol Obstet*. <https://doi.org/10.1002/ijgo.12827>

## EQUITYTOOL UPDATES

### New EquityTool in Mali

July saw the release of the [EquityTool in Mali](#). This newest addition to the EquityToolbox is sourced from the 2015 MICS, and consists of 19 questions with 22 variables. Start using the tool with your Malian clients and survey respondents today.

### Country, State, and DHIS 2 Updates in Progress

There are a few exciting updates in the works for the EquityTool. Stay tuned this summer for:

- New EquityTool for **Jordan**
- Updates for **compatibility with DHIS2** versions 2.28 through 2.32
- The first **state-specific tools** in India

[Start using the EquityTool](#)

## New M4M Global Health Research Associate

We are thrilled to welcome Sara Riese, PhD, to the Metrics for Management team. An associate faculty member at the Johns Hopkins Bloomberg School of Public Health, Sara brings over 15 years of experience in global health, with a research focus on strategies to improve quality and implementation of evidence-based programs.

## M4M Board member joins Lancet international advisory board

We are proud to announce that Board member Malabika Sarker has been named to The Lancet international advisory board. Malabika is a Professor and Associate Dean of the BRAC James P Grant School of Public Health, BRAC University, Bangladesh, where her research focuses on global health implementation and intervention and themes of equity, universal health coverage, gender, and security.
